

Website Content Plan — Blu Foundation

Document Code: BLU_D13 **Version:** 1.0 **Date:** June 2026 **Status:** Draft **Prepared by:** NaaS Digital Content Team **For:** Blu Foundation, Bangladesh

How to use this document: Text marked **[FOUNDER INPUT REQUIRED: ...]** must be completed by the founder before this document moves to Version 1.1 (approved draft). Text marked **[NEEDS BENGALI TRANSLATION]** must be reviewed and confirmed by a native Bengali speaker before publication. All proposed copy is a working draft for founder review and approval — nothing here is final.

Table of Contents

4. SEO Keyword Strategy
5. Content Tone and Style Guide
6. Home Page Detailed Copy
7. The Problem Page — Research Evidence Section
8. Donation Page Structure
9. Technical Requirements
10. Content Launch Priority
11. Registered Address and Contact Details

1. Website Objectives

The Blu Foundation website is not a brochure. It is a working tool — the primary point of contact between the organisation and every audience it must win over: the school administrator weighing a partnership, the parent curious about the programme, the donor deciding where to direct funds, and the journalist looking for a credible source. Every page, paragraph, and call to action must serve one of the three objectives below.

1.1 Primary Objective — Establish Credibility

Blu Foundation operates in a space — values education and social-emotional learning for primary school children — that is unfamiliar to many Bangladeshi institutions. The website must do the work of establishing that this organisation is:

- **Legitimate:** registered, accountable, with a named leadership team and verifiable partners
- **Research-backed:** grounded in evidence, not opinion (see Section 7)
- **Experienced:** already working with schools, already producing results

Target audiences for credibility:

- School principals and administrators (Class 1–5 focus)
- Classroom teachers and curriculum coordinators
- Parents of primary school children
- Domestic and international donors and funders
- Government education bodies and media

1.2 Secondary Objective — Drive School Partnership Enquiries

The immediate commercial and programmatic goal of the website is to generate enquiries from schools interested in adopting the Blu Foundation curriculum or teacher-training programme. Every school that visits the site should be nudged, at multiple points, toward a clear and frictionless enquiry form.

1.3 Tertiary Objectives

In rough order of priority after the primary and secondary goals:

1. **Online course enrolment** — directing parents and teachers toward the digital learning offer
2. **Donation** — converting donors, both one-off and recurring
3. **Newsletter signup** — building a low-friction contact list across all audience segments

2. Site Map

The structure below is the full recommended information architecture. Pages marked **(P1)** are required at launch (Phase 1). Pages marked **(P2)** and **(P3)** follow in later phases (see Section 10).

	└─ Community Programs – Coming Soon (P3)
─	Research & Evidence
	└─ The Problem (P2)
	└─ Our Approach (P2)
	└─ Research Behind Our Work (P2)
─	Resources
	└─ Free Downloads – Sample Chapters, Parent Guides (P2)
	└─ Blog / Insights (P2)
─	Get Involved
	└─ Schools – Partner With Us (P1)
	└─ Donate (P1)
	└─ Volunteer / Join the Team (P2)
─	News & Media (P2)
─	Contact Us (P1)

URL slug conventions:

- `/about` → `/about/our-story` , `/about/team` , `/about/advisory-board` , `/about/partners`
- `/programs` → `/programs/school-curriculum` , `/programs/online-learning` , `/programs/teacher-training` , `/programs/community`
- `/research` → `/research/the-problem` , `/research/our-approach` , `/research/evidence`
- `/resources` → `/resources/downloads` , `/resources/blog`
- `/get-involved` → `/get-involved/schools` , `/get-involved/donate` , `/get-involved/volunteer`
- `/news`
- `/contact`

3. Page Copy Outlines

This section provides the structural brief for each major page. Detailed copy for Home, The Problem, and Donate pages follows in Sections 6, 7, and 8.

3.1 Home Page

Page purpose: Orient every visitor type within 5 seconds. Communicate mission, credibility, and the single most important action for each audience. Drive school principals to the partnership page, parents to the programmes overview, and donors to the donate page.

Hero section: See Section 6 for three full headline/subheadline options.

Key content blocks:

1. **The Problem in One Statistic** — A single, striking, cited figure from Bangladeshi or South Asian research that establishes why manners and etiquette education matters. Followed by a one-sentence bridge to Blu Foundation's mission. [SOURCE_BD_01] or [SOURCE_BD_09]
2. **What We Do** — A three-panel overview (icons + short text): School Curriculum / Teacher Training / Online Learning. Each panel links to the relevant program page.
3. **Impact Numbers** — [FOUNDER INPUT REQUIRED: current programme statistics — number of schools reached, number of children, number of teachers trained, number of districts]. Displayed as large, bold counters.
4. **How It Works** — A simple three-step visual: (1) School partners with Blu Foundation → (2) Children learn through structured curriculum and activities → (3) Communities see change. Aimed at school administrators and parents.
5. **Testimonials** — [FOUNDER INPUT REQUIRED: 2–3 quotes from school principals or teachers who have used the programme; 1–2 quotes from parents]. Each quote must include full name, role, school name, and district.
6. **Featured Research Snippet** — One sentence from the SEL research evidence (see Section 7), with a "Read the evidence" CTA linking to the Research page.
7. **Newsletter Signup** — Simple, single-field email capture. Bengali-language prompt for parent audience. [NEEDS BENGALI TRANSLATION]: prompt text.

Call to action (primary): "Partner With Your School" — links to [/get-involved/schools](#) **Call to action (secondary):** "Learn More About Our Work" — links to [/programs](#)

3.2 About Us / Our Story Page

Page purpose: Build personal trust with the founder's story and establish the credibility of the organisation's mission and governance.

Hero section:

- Headline: "A Simple Belief: Good Manners Change Lives"
- Subheadline: "Blu Foundation was born from a conviction that the values we teach children today shape the Bangladesh of tomorrow."

Key content blocks:

1. **Founding Story** — [FOUNDER INPUT REQUIRED: personal narrative. When did the idea begin? What was the moment the founder decided to act? What problem did they personally witness?] Approximately 200–300 words. Written in first-person or close third-person. Photo of founder required.
2. **Mission Statement** — [FOUNDER INPUT REQUIRED: approve final wording]. Displayed as a pull-quote in large type against a blue background band. To be accompanied by the Vision statement.

3. **Our Values** — Four to six core values displayed as icon cards (examples: Respect / Responsibility / Honesty / Kindness / Civic Pride / Empathy). [FOUNDER INPUT REQUIRED: confirm values list and any Bengali language equivalents]. [NEEDS BENGALI TRANSLATION]
4. **Timeline** — Organisation milestones from founding to present. [FOUNDER INPUT REQUIRED: key dates — founding, first school partnership, first curriculum publication, key awards or recognitions].
5. **The Team** — Grid of headshots with name, title, and 2–3 sentence bio. [FOUNDER INPUT REQUIRED: full team bios and photos for all staff members].

Call to action: "See How We Work in Schools" — links to </programs/school-curriculum>

3.3 The Problem Page (Research & Evidence)

Page purpose: Translate research into accessible language that makes the case for values education to parents, donors, and education policymakers. This page is the intellectual foundation of the entire site.

See Section 7 for the full web copy draft (approximately 350 words, ready for founder review).

Hero section:

- **Headline:** "Why Manners Matter — and Why Schools Must Teach Them"
- **Subheadline:** "Children in Bangladesh are growing up in a changing world. Research tells us what they need — and what they are not currently receiving."

Key content blocks:

1. **The Challenge** — Contextual overview of the declining space for values and character education in Bangladesh's school system. Cites [SOURCE_BD_01] and [SOURCE_BD_15].
2. **What the Data Shows** — Bullying and peer-conduct statistics. Cites [SOURCE_BD_09].
3. **The Global Evidence** — What decades of international research on social-emotional learning (SEL) tells us. Cites [SOURCE_GL_01] and [SOURCE_UK_01].
4. **What This Means for Your Child / Your School** — Translating the research into practical, relatable outcomes. No jargon.
5. **How Blu Foundation Responds** — Bridge paragraph connecting the problem to the organisation's programmatic response.

Call to action: "See Our Curriculum" — links to </programs/school-curriculum>

3.4 School Curriculum / Programs Page

Page purpose: Give school principals and curriculum coordinators everything they need to understand, evaluate, and request the Blu Foundation curriculum.

Hero section:

- **Headline:** "A Curriculum That Builds the Whole Child"
- **Subheadline:** "Our structured, classroom-ready programme brings manners, etiquette, and social skills to Class 1–5 — with teacher guides, student books, and ongoing support."

Key content blocks:

1. **Programme Overview** — What the curriculum covers across five grade levels. What a lesson looks like. How it fits into the existing school timetable without replacing core academic subjects.
2. **Curriculum Components** — Student textbooks / Teacher guides / Class activity cards / Assessment rubrics.
[FOUNDER INPUT REQUIRED: confirm full list of materials provided to partner schools and whether these are free, subsidised, or paid].
3. **Teacher Training** — Brief summary of what teacher support is provided. Links to </programs/teacher-training>.
4. **What Schools Say** — [FOUNDER INPUT REQUIRED: 2–3 school testimonials]. Display with school name, principal name, district, and class levels reached.
5. **How to Partner** — Simple three-step process: (1) Submit an enquiry → (2) Blu Foundation team visits your school → (3) Programme begins. With timeline indication.
6. **Accreditation / Approval Status** — [FOUNDER INPUT REQUIRED: is the curriculum approved or reviewed by any Bangladesh government education body (NCTB, DSHE, or district education office)? If so, state clearly. If not, note that approval is being sought.] This is a significant credibility signal for school administrators.

Call to action: "Enquire About Partnership" — links to </get-involved/schools> enquiry form

3.5 Donate Page

Page purpose: Convert a warm visitor (someone who has already spent time on the site) into a donor. Build emotional connection, demonstrate impact specificity, and make giving frictionless.

See Section 8 for full page structure and proposed copy.

Hero section:

- **Headline:** "Every Taka Teaches a Child to Be Kind"
- **Subheadline:** "Your donation directly funds our work in Bangladesh's classrooms. Here is exactly what it does."

Call to action: Donation form with tier selection (BDT 500 / BDT 2,000 / BDT 10,000) and payment options. [FOUNDER INPUT REQUIRED: payment gateway integration — bKash number/merchant ID, Nagad, card payment provider]

3.6 Partner With Us Page (for Schools)

Page purpose: Convert school administrators from interested to committed. Remove every barrier to submitting an enquiry.

Hero section:

- **Headline:** "Bring Blu Foundation to Your School"
- **Subheadline:** "We are looking for schools in [districts/regions] committed to the whole development of their students. Partnership is simple — and the impact is lasting." [FOUNDER INPUT REQUIRED: which districts or regions are currently prioritised for partnership?]

Key content blocks:

1. **Who We Partner With** — Criteria for partner schools: class levels (1–5), medium of instruction (Bengali / English medium), school type (government / private / NGO-run). [FOUNDER INPUT REQUIRED: confirm eligibility criteria].
2. **What Partnership Includes** — Full list of what Blu Foundation provides versus what the school provides (classroom time, teacher participation, headcount data for impact reporting).
3. **The Partnership Process** — Step-by-step timeline from first contact to programme start.
4. **FAQs** — Anticipated questions from principals: cost to the school, time required from teachers, curriculum compatibility with NCTB syllabus, whether the programme disrupts exam preparation. [FOUNDER INPUT REQUIRED: official answers to these FAQs].
5. **Enquiry Form** — Fields: School name / Principal name / Email / Phone / District / Number of students / Which classes / Message. Keep the form short — five to six fields maximum.

Call to action: "Submit Your School Enquiry" (form submission) Secondary CTA: "Download Our School Partnership Brochure" (PDF) [FOUNDER INPUT REQUIRED: brochure to be produced as separate deliverable]

3.7 Contact Page

Page purpose: Ensure every visitor — regardless of their purpose — can reach the right person quickly and without frustration.

Hero section:

- **Headline:** "We Would Love to Hear From You"
- **Subheadline:** "Whether you are a school, a donor, a parent, or just curious — get in touch."

Key content blocks:

1. **Contact Form** — General enquiry form with a subject dropdown: School Partnership / Donation / Media Enquiry / Volunteer / Other.
2. **Direct Contact Details** — [FOUNDER INPUT REQUIRED: official email address, phone number, WhatsApp number if applicable].
3. **Office Address** — [FOUNDER INPUT REQUIRED: registered office address, map embed].
4. **Social Media Links** — [FOUNDER INPUT REQUIRED: confirm active social media accounts — Facebook page, Instagram, YouTube, LinkedIn, X/Twitter].
5. **Office Hours** — [FOUNDER INPUT REQUIRED: confirm days and hours the office is staffed for calls and visits].

Call to action: Form submission button. WhatsApp quick-contact button (if applicable — highly recommended given Bangladesh mobile usage patterns [SOURCE_BD_13]).

4. SEO Keyword Strategy

4.1 Keyword Research Context

Bangladesh has a rapidly expanding digital-first population, with over 90% of web traffic originating on mobile devices [SOURCE_BD_13]. Search behaviour is split between English-language queries (typically from educators, NGO professionals, and urban donors) and Bengali-language queries (parents and rural communities). The SEO strategy must address both.

4.2 Primary Keywords (English)

Target these on the highest-traffic pages (Home, Programs, About, Research):

Keyword	Search Intent	Target Page
manners education Bangladesh	Informational	Home, Research
etiquette school Bangladesh	Commercial/Informational	Programs, Partner With Us
character education NGO Bangladesh	Commercial	About, Home
social emotional learning Bangladesh	Informational	Research, Programs
primary school curriculum Bangladesh	Informational	Programs, Partner With Us

4.3 Secondary Keywords (English)

Target these on supporting pages (Blog, Downloads, FAQ sections):

Keyword	Search Intent	Target Page
how to teach manners to children Bangladesh	Informational	Blog, Resources
NGO education Bangladesh donate	Transactional	Donate
primary school textbook Bangladesh	Commercial	Programs
values education primary school	Informational	Research
school partnership NGO Bangladesh	Commercial	Partner With Us

4.4 Bengali-Language Keywords

[NEEDS BENGALI TRANSLATION – the terms below are provided as source material for translation and must be confirmed by a native speaker before

use in published SEO metadata]

Bengali Term (draft)	English Gloss	Target Page
শিশুদের শিষ্টাচার শিক্ষা	Children's etiquette/manners education	Home, Programs
নৈতিক শিক্ষা বাংলাদেশ	Moral/ethical education Bangladesh	Research, About
প্রাথমিক বিদ্যালয় পাঠ্যক্রম	Primary school curriculum	Programs
শিশুদের মূল্যবোধ শিক্ষা	Children's values education	Research
বাংলাদেশে এনজিও শিক্ষা	NGO education in Bangladesh	About, Donate

[NEEDS BENGALI TRANSLATION: confirm all Bengali terms above; add search volume data if Bengali keyword research is conducted]

4.5 On-Page SEO: Title Tags and Meta Descriptions (Top 5 Pages)

Home Page

- Title tag: Blu Foundation – Manners & Etiquette Education for Bangladesh's Children
- Meta description: Blu Foundation teaches manners, respect, and social skills to primary school children across Bangladesh. Partner with us to bring character education to your school. (156 characters)

About Us / Our Story

- Title tag: About Blu Foundation – Our Story, Mission & Team | Character Education NGO Bangladesh
- Meta description: Learn how Blu Foundation began and why we believe manners education is essential for Bangladesh's primary school children. Meet our team and read our mission. (159 characters)

The Problem (Research Page)

- Title tag: Why Manners Education Matters in Bangladesh – Research & Evidence | Blu Foundation
- Meta description: Research shows social-emotional learning improves academic outcomes by 11 percentile points. See the evidence behind Blu Foundation's approach to character education. (165 characters — trim if needed)

School Curriculum / Programs

- Title tag: School Curriculum – Manners & Etiquette Programme for Class 1–5 | Blu Foundation Bangladesh
- Meta description: Blu Foundation's classroom-ready curriculum brings structured manners and etiquette education to Class 1–5. Enquire about school partnership today. (149 characters)

Donate

- Title tag: Donate to Blu Foundation – Fund Manners Education in Bangladesh
- Meta description: Your donation helps Blu Foundation reach more children with the values they need to thrive. Give from BDT 500 and see exactly what your contribution does. (154 characters)

4.6 Additional SEO Notes

- **Page speed:** Core Web Vitals are a confirmed Google ranking factor. Given Bangladesh's 3G-heavy mobile environment [SOURCE_BD_13], images must be served in WebP format and lazy-loaded. Target a Largest Contentful Paint (LCP) of under 2.5 seconds on a simulated 3G connection.
- **Schema markup:** Implement **Organization** schema on the homepage, **FAQPage** schema on the Partner With Us page, and **Article** schema on Blog posts.
- **Internal linking:** Every page should link to at least two other pages. The Donate and Partner With Us pages should receive links from every major page.
- **Backlinks:** Target earned backlinks from Bangladesh education media (The Daily Star education section, Prothom Alo), UNICEF Bangladesh, and peer NGOs. A media/press page with downloadable assets (logo, founder photo, programme summary) makes this easier.

5. Content Tone and Style Guide

5.1 Core Tone

The Blu Foundation voice is:

- **Warm, not clinical.** We speak like a trusted teacher, not a policy document.
- **Aspirational, not preachy.** We believe in children's potential. We do not lecture parents.
- **Evidence-backed, not academic.** We cite research, but we translate it into plain language.
- **Honest about scale.** We are growing. We do not overclaim. We let our evidence speak.
- **Specific, not vague.** "We have reached 1,200 children in 14 schools in Dhaka and Chattogram" is always better than "We have reached thousands of children across Bangladesh."

5.2 Language and Bilingual Approach

Bengali-first contexts: Parent-facing content (parent guides, newsletter, community programme descriptions, social media for parents). Bengali text appears first; English translation follows in smaller type or in a toggle.

English-first contexts: Donor-facing content (donation page, annual report, international partnership pages), media-facing content (press releases, media kit). English appears first; Bengali translation available via language toggle.

Mixed contexts: Home page, About page, Research page — lead with English, make Bengali toggle prominent. These pages serve all audiences.

Language toggle: A prominent Bengali/English toggle must appear in the header navigation on all pages. Default language should be detected by browser locale where possible. [FOUNDER INPUT REQUIRED: confirm whether Bengali or English should be the site default for visitors without a detected locale preference.]

Transliteration note: Where Bangladeshi place names, people's names, or cultural terms appear, use standard English transliterations consistently (e.g., "Dhaka" not "Dhaka City"; "Chattogram" not "Chittagong"). [FOUNDER INPUT REQUIRED: confirm preferred transliterations for any organisation-specific terms.]

5.3 Photography and Visual Style

Photography brief:

- **Subject:** Children aged 5–12, diverse in appearance, background, and school type (urban private, rural government)
- **Setting:** Classrooms, school courtyards, community spaces — real Bangladesh environments, not international stock photo settings
- **Dress:** School uniforms or modest everyday dress appropriate to Bangladeshi norms; no Western-style casual clothing for children unless contextually appropriate
- **Expression:** Natural, engaged, joyful — not posed "model" smiles
- **Never use:** Stock photos featuring non-Bangladeshi children, or AI-generated images of children

Video brief: Short (60–90 second) clips for the homepage hero and programme pages. Clips should show a classroom in session, children engaged in etiquette activities, and a teacher speaking (with subtitles in both English and Bengali). [NEEDS BENGALI TRANSLATION: all video subtitle text]

Colour palette: Use Blu Foundation's established brand colours consistently. [FOUNDER INPUT REQUIRED: confirm official hex colour codes for primary and secondary brand colours, logo file formats.]

5.4 Data and Citations

- Every statistic cited on the website must reference its source code (SOURCE_BD_01–25 or SOURCE_GL_01–05) in the content management system's back-end metadata, even when the visible text on-page does not show the full citation.
- Where a statistic is approximated or rounded (e.g. "research shows SEL improves academic performance by around 11 percentile points"), the original source must still be logged.
- Avoid statistics older than five years unless they are foundational (e.g., landmark meta-analyses). Check all statistics for Bangladesh-specific relevance before publication.

6. Home Page Detailed Copy

6.1 Hero Headline and Subheadline Options

Three options are provided for the founder to review. These are working drafts. The final choice will become the primary public-facing statement of Blu Foundation's mission and should be treated accordingly.

Option A — Impact-Focused

Headline:

"Where Good Manners Begin — and Better Futures Follow"

Subheadline:

"Blu Foundation brings structured manners and etiquette education to primary school classrooms across Bangladesh — because how a child treats others is as important as what they learn."

Why this works: Leads with the outcome (better futures), grounds it in the action (classroom programme), and bridges academic and values education. Appeals to parents and school administrators.

Option B — Mission-Focused

Headline:

"Teaching Children the Skills That Last a Lifetime"

Subheadline:

"Research shows that social skills and strong values are foundational to a child's success — in school and beyond. Blu Foundation exists to make sure every child in Bangladesh has the chance to learn them."

Why this works: Leads with the research credential (establishing authority early), speaks directly to parents' aspirations for their children, and is geographically specific. Appeals to donors and educators who want evidence-based programmes.

Option C — Community-Focused

Headline:

"Building a Kinder Bangladesh — One Classroom at a Time"

Subheadline:

"When children learn to respect themselves and others, their families, schools, and communities all flourish. Blu Foundation is carrying this work into primary schools across the country."

Why this works: Largest scope — appeals to the national vision. Warm and inclusive. The phrase "one classroom at a time" signals grassroots, ground-level work rather than top-down policy. Resonates with community donors and partner NGOs.

[FOUNDER INPUT REQUIRED: select Option A, B, or C – or provide edits to any option. The approved headline will be used across all digital materials including social media banners and email headers. This is a high-priority approval.]

6.2 "About in 3 Sentences" — Homepage Quick Pitch

Proposed copy:

Blu Foundation is a Bangladesh-based NGO dedicated to one belief: that good manners, respect, and social skills can be taught — and when they are, children thrive. We deliver a structured, research-informed curriculum to primary school students in Class 1 through 5, working directly with schools, training teachers, and engaging parents. Our mission is to ensure that the next generation of Bangladeshi children grows up not only academically capable, but socially confident and deeply considerate of others.

Notes for founder: This paragraph appears "above the fold" on desktop and within the first scroll on mobile. It must be approved alongside the hero headline (Section 6.1). If the mission statement wording changes, this paragraph must be updated to match.

[FOUNDER INPUT REQUIRED: review and approve this paragraph, especially the phrase "good manners, respect, and social skills can be taught." Confirm that this accurately represents the foundation's mission statement.]

7. The Problem Page — Research Evidence Section

The following is proposed final web copy for the Research & Evidence > The Problem page. It is written at approximately 370 words in accessible, jargon-free English. A parallel Bengali version is required for publication. [NEEDS BENGALI TRANSLATION]

Why Manners Matter — and Why Schools Must Teach Them

Something has changed in Bangladesh's classrooms.

The academic pressure on primary school children — to pass tests, score marks, and move up through a competitive system — has never been higher. But in the race to teach what can be measured, something essential is being left behind: the skills children need to treat others well, navigate conflict peacefully, and become citizens their communities can be proud of. [SOURCE_BD_01]

Research conducted in Bangladesh's schools has documented a troubling decline in ethical values and prosocial behaviour among young people. [SOURCE_BD_15] This is not a failure of individual families. It is a structural gap: values education has been squeezed out of the curriculum, and neither teachers nor schools have been given the tools to address it.

Bullying is more common than most parents realise.

Studies on peer conduct in Bangladeshi primary schools have found significant rates of bullying behaviour — physical, verbal, and social — affecting children as young as six and seven years old. [SOURCE_BD_09] Behind these numbers are real children: the child who dreads the walk to school, the child who has no one to sit with at lunch, the child whose confidence is being eroded every day.

The global evidence is clear.

Decades of international research on social-emotional learning (SEL) — the structured teaching of interpersonal skills, self-management, and empathy — shows consistent results. A landmark analysis of over 200 school-based SEL programmes found that students who received structured social-emotional learning improved their academic performance by an average of 11 percentile points compared to students who did not. [SOURCE_GL_01] This is not a marginal gain. It is the difference between a child who struggles and a child who thrives.

Studies in school settings across multiple countries have demonstrated that character education, delivered systematically and with trained teachers, produces lasting improvements in student behaviour, classroom environment, and community relationships. [SOURCE_UK_01]

This is the gap Blu Foundation exists to close.

We bring structured, evidence-based manners and etiquette education into the primary school classroom — so that children learn not just to read and write, but to listen, share, and treat others with dignity.

[CTA button] → See Our School Curriculum

Content note for web developer: The six source references above ([SOURCE_BD_01], [SOURCE_BD_09], [SOURCE_BD_15], [SOURCE_GL_01], [SOURCE_UK_01]) should be linked to a references/bibliography page or expandable footnote panel on the Research section. They should not appear as visible inline text to end users; instead, implement as hover-tooltip citations or a numbered footnotes section at the bottom of the page.

8. Donation Page Structure

8.1 Emotional Hook Opening

Proposed copy:

Somewhere in Bangladesh right now, a seven-year-old is learning how to say sorry and mean it.

A nine-year-old is discovering that holding the door for someone behind you is not a small thing — it is a way of saying: you matter.

These are not grand gestures. They are the small, daily habits that shape who a child becomes — and who a community becomes. Blu Foundation exists to teach them. Your donation makes it possible.

[FOUNDER INPUT REQUIRED: if the founder wishes to include a personal story in this opening – a specific child or classroom moment that illustrates why this work matters – this is the ideal placement for it. A brief personal narrative (3–5 sentences) from the founder, placed before or after the paragraph above, significantly increases donation conversion rates.]

8.2 Giving Tiers and Impact Statements

Tier	Amount	Impact Statement
Supporter	BDT 500	Provides one child with a full set of Blu Foundation learning materials — the student workbook, activity cards, and parent guide — for an entire academic year.
Champion	BDT 2,000	Funds one day of teacher training, equipping a classroom teacher with the skills and confidence to deliver the Blu Foundation programme to 30–40 students every week.
Partner	BDT 10,000	Sponsors a full school term of the Blu Foundation programme in one classroom — covering materials, teacher support visits, and impact assessment.

Notes:

- Impact statements must be verified against actual programme costs before publication. [FOUNDER INPUT REQUIRED: confirm that these impact-per-taka figures are accurate and can be substantiated in an audit if required by a donor.]
- Consider adding a fourth tier for international donors: USD 50 / GBP 40 equivalent (at current exchange rate), with corresponding impact statement.
- Recurring giving (monthly donation) should be presented as the preferred option, with one-off giving as an alternative. A monthly donor at BDT 500/month funds a child's full-year programme at BDT 6,000/year — this framing should be used in the recurring giving prompt.

8.3 Payment Methods

[FOUNDER INPUT REQUIRED: Blu Foundation must confirm the following before the donation page can go live:]

- bKash:** Preferred mobile payment method. Requires a verified bKash merchant account. Provide merchant number and confirm whether the integration will be manual (donor sends to number and emails proof) or automated (via bKash Payment Gateway API).

- **Nagad:** Secondary mobile payment option. Confirm whether a Nagad merchant account is held or will be created.
- **Card payments:** Credit/debit card payment for urban and international donors. Recommended providers: SSLCommerz (most widely used in Bangladesh), or Stripe for international card acceptance. [FOUNDER INPUT REQUIRED: confirm preference.]
- **Bank transfer:** For large institutional donors. Provide bank account details (bank name, branch, account number, routing number). [FOUNDER INPUT REQUIRED: bank details for display on donation page.]

8.4 Trust Signals

The following trust elements must appear on the donation page to convert cautious donors:

- **NGO Registration Number:** [FOUNDER INPUT REQUIRED: official registration number from the relevant Bangladesh authority (NGO Affairs Bureau, Department of Social Services, or RJSC).]
- **Governing Board:** Names of board members with their professional affiliations. [FOUNDER INPUT REQUIRED: board member names and titles for public display.]
- **Research Partners:** Logos and names of any academic institutions, universities, or international organisations that have reviewed or partnered with Blu Foundation. [FOUNDER INPUT REQUIRED: confirm research partners.]
- **Financial transparency statement:** "Blu Foundation publishes annual accounts [link]. [X]% of all donations go directly to programme delivery." [FOUNDER INPUT REQUIRED: percentage and link to accounts, or note that these are being prepared for first publication.]
- **Press coverage:** Any media mentions from credible Bangladesh outlets add significant trust. [FOUNDER INPUT REQUIRED: list any press coverage to date.]

9. Technical Requirements

9.1 Device and Connectivity

- **Mobile-first design is non-negotiable.** Bangladesh has among the highest mobile web usage rates in South Asia, with over 90% of web traffic from mobile devices [SOURCE_BD_13]. All layouts must be designed for a 375px screen width first, then scaled up to tablet and desktop.
- **3G optimisation:** The site must load its above-the-fold content within 3 seconds on a simulated 3G connection (approximately 1.6 Mbps download). This requires:
 - WebP image format with JPEG fallback
 - Lazy loading for all below-fold images and video thumbnails

- Minified CSS and JavaScript
- Content Delivery Network (CDN) with a server node in South or Southeast Asia
- Hero images compressed to under 150kb

9.2 Language / Internationalisation

- **Language toggle:** Persistent Bengali/English toggle in header navigation. State preserved across page navigation via cookie or local storage.
- **URL structure:** Recommend single-URL internationalisation with `lang` parameter (e.g., `?lang=bn`) rather than separate subdomain or subdirectory, to consolidate SEO authority on a single domain.
- **Font stack:** Hind Siliguri or SolaimanLipi for Bengali text. Ensure Bengali glyphs render correctly on Android system fonts (the most common mobile OS in Bangladesh). Test on Samsung Internet browser.

9.3 Accessibility

- **WCAG 2.1 Level AA minimum compliance.** This is the international standard and should be treated as a floor, not a ceiling.
- Specific requirements:
 - All images have descriptive alt text in both English and Bengali `[NEEDS BENGALI TRANSLATION]`
 - Colour contrast ratio minimum 4.5:1 for body text
 - All forms are keyboard-navigable
 - Video content has captions (Bengali and English) `[NEEDS BENGALI TRANSLATION]`
 - No content conveyed by colour alone

9.4 Security and Privacy

- **SSL/TLS certificate:** HTTPS on all pages. Required for bKash and card payment integration. Non-negotiable.
- **Privacy policy:** A Bangladesh-compliant privacy policy covering:
 - Collection of children's data (the website may display photos of minors; consent procedures must be documented)
 - Newsletter data handling
 - Cookie consent (required for Google Analytics and Facebook Pixel)
 - Data retention policy
 - Contact for data removal requests `[FOUNDER INPUT REQUIRED: legal counsel review of privacy policy before launch. Template to be provided in a separate deliverable.]`
- **GDPR note:** If the site accepts donations from EU-based visitors (e.g., Bangladeshi diaspora in the UK or Germany), a GDPR-compliant cookie consent banner is required. Recommend a tool such as Cookiebot or a

- simple custom implementation.
- 9.5 Analytics and Tracking
- Google Analytics 4 (GA4):** Install on all pages. Configure conversion events for: form submissions (school enquiry, contact, newsletter), donation page views, donation button clicks, language toggle usage.
 - Facebook Pixel:** Install for retargeting of visitors who viewed the Donate page or the Partner With Us page.

[FOUNDER INPUT REQUIRED: confirm whether a Facebook Business Manager account exists or needs to be created.]
 - Heatmapping (recommended):** Microsoft Clarity (free) or Hotjar (paid) to understand how visitors interact with the home page and donation page. Particularly useful for identifying where mobile users drop off.

9.6 Hosting and Infrastructure

- Recommended hosting:** A managed WordPress host (Kinsta, WP Engine, or SiteGround) with a server in Singapore or Mumbai (lowest latency for Bangladesh). Alternatively, a static site generator (Next.js or Astro) deployed on Vercel or Cloudflare Pages offers better performance but requires more development expertise.
- Domain:**

[FOUNDER INPUT REQUIRED: confirm primary domain name – blu-foundation.org.bd (Bangladesh ccTLD, adds local trust) versus blu-foundation.org (international, easier for donors outside Bangladesh).]
- Email:** Professional email on the same domain (e.g., info@blu-foundation.org). Google Workspace recommended for ease of use.

[FOUNDER INPUT REQUIRED: confirm email domain and setup preference.]
- Backup:** Daily automated backups. Off-site backup to a separate cloud storage provider (e.g., AWS S3 or Backblaze B2).

10. Content Launch Priority

Phase 1 — Pre-Launch (Target: [FOUNDER INPUT REQUIRED: target launch date])

These pages must be complete, approved, and tested before the site goes live. No exceptions.

Page	Status	Owner	Founder Input Needed
Home	Draft copy complete (see Sections 6.1, 6.2)	Content team	Hero headline approval, impact numbers, testimonials
About Us / Our Story	Structure complete	Content team	Founding story, mission statement, team bios
Contact	Structure complete	Web developer	Address, phone, email, social links

Programs Overview	Structure complete	Content team	Materials list, accreditation status, school eligibility
Partner With Us (Schools)	Structure complete	Content team	Eligibility criteria, FAQ answers, partnership brochure
Donate	Structure complete (see Section 8)	Content team + developer	Payment gateway, registration number, board details

Phase 2 — Post-Launch (Target: 60–90 days after launch)

Page	Notes
Research & Evidence — The Problem	Copy complete (see Section 7); requires Bengali translation
Research & Evidence — Our Approach	Content brief to be written
Research & Evidence — Research Behind Our Work	Full bibliography/evidence page
Resources — Free Downloads	Requires PDF assets (sample chapter, parent guide)
Blog / Insights	Requires editorial calendar and first 3 posts
News & Media	Requires press kit assets
About — Advisory Board	Requires board member bios and consent for publication
About — Partners	Requires partner logos and permission to display
Get Involved — Volunteer / Join the Team	Requires HR/recruitment process to be in place

Phase 3 — Year 2

Feature	Notes
Online Learning Integration	Requires LMS platform selection (recommend Teachable, Moodle, or custom build)
School Partner Portal Login	Secure login for partner schools to access materials, report data, and track progress
Community Programs Page	Content required once programme design is finalised
Bengali-first site version	Full site content translated and reviewed for Bengali-language launch

Document Revision History

Version	Date	Author	Changes
1.0	June 2026	NaaS Digital Content Team	Initial draft for founder review
1.1	TBC	TBC	Incorporate founder inputs; advance flagged sections
2.0	TBC	TBC	Final approved version; ready for web developer handoff

Open Items Summary

The following items are outstanding and must be resolved before this document can be marked Version 2.0 (final). They are compiled here for ease of tracking.

Item	Section	Priority
Approve hero headline (Option A, B, or C)	6.1	Critical — blocks all other copy approvals
Approve mission statement wording	3.2, 6.2	Critical
Provide founding story / personal narrative	3.2, 8.1	High
Provide full team bios and photos	3.2	High — needed for Phase 1 launch
Confirm impact statistics (schools, children, teachers reached)	3.1	High — needed for homepage
Confirm giving tier impact figures (BDT 500 / 2,000 / 10,000)	8.2	High — needed for donation page
Confirm payment gateway preference (bKash / Nagad / card)	8.3	Critical — needed for donation page
Provide NGO registration number	8.4, 11	Critical — needed for donation trust signals
Provide board member names and titles	8.4	High
Provide registered address, phone, email, social links	11	Critical — needed for all footer/contact sections
Confirm target launch date	10	High
Confirm domain name (org.bd vs .org)	9.6	High
Confirm school eligibility criteria and FAQ answers	3.6	High
Confirm accreditation / NCTB status of curriculum	3.4	Medium
Confirm which districts are prioritised for partnership	3.6	Medium
Review and confirm all Bengali-language translations	4.4, 5.2, 7	High — needed before Phase 2 launch
Provide school and parent testimonials	3.1, 3.4	High
Provide Facebook Business Manager account details	9.5	Medium
Legal review of privacy policy (children's data)	9.4	High — needed before launch

End of BLU_D13 — Website Content Plan v1.0

Next steps: Founder reviews this document and returns completed inputs. NaaS team produces Version 1.1 with all inputs incorporated, then issues for final sign-off before web developer handoff.
