1. Overview and Purpose

1.1 Why M&E Matters for Blu Foundation

Monitoring and Evaluation (M&E) is the systematic process by which Blu Foundation tracks whether its program is reaching children, whether those children are changing their behavior, and whether that change is durable enough to matter in their lives and communities.

For Blu Foundation, M&E serves three equally important functions:

Donor Accountability. Donors — whether individual supporters, institutional funders, or government partners — are entitled to evidence that their investment is being used effectively. This framework provides the data infrastructure to produce honest, credible reports. It does not cherry-pick successes; it tracks what is not working as rigorously as what is working.

Program Improvement. M&E is not a reporting exercise conducted at year-end. It is a continuous feedback loop. Monthly coordinator reports, termly monitoring visits, and mid-year reviews exist so that the program team can identify problems — a curriculum unit that is not landing, a school where teacher confidence is low, a class level where behavioral outcomes are lagging — and make adjustments before the end of an academic year. M&E data is the primary input to Blu Foundation's annual program adaptation process.

Evidence Building. Bangladesh lacks a robust evidence base on school-based manners, etiquette, and character education. Blu Foundation occupies an important position: a program grounded in local culture and values, operating at the primary school level, with a structured curriculum and trained teachers. If the program generates credible, independently verified behavioral outcome data, it contributes to the national conversation about what holistic child development can look like. By Year 3, Blu Foundation should be in a position to publish findings and influence policy.

1.2 M&E Philosophy

Blu Foundation's M&E approach is guided by four principles:

Participatory. Children, teachers, parents, and school coordinators are not simply data sources. They are stakeholders whose observations, experiences, and feedback shape how the program is understood and improved. Focus groups, coordinator reports, and parent surveys are designed to surface perspectives from all four groups, not just the most easily measurable outputs.

Strengths-Based. Assessment tools are designed to capture growth, not to expose deficits. When a child moves from "Never" to "Sometimes" on a behavioral indicator, that is progress worth recording and celebrating. The framework avoids language that frames children as behaviorally deficient; it frames them as learners on a journey.

Non-Punitive. No data collected under this framework is used to penalize a school, a teacher, or a student. Poor outcomes on a monitoring visit trigger a support response from Blu Foundation, not a sanction. School coordinators are encouraged to report problems accurately because they know the response will be support, not blame. This is explicit in the School Partnership Agreement (BLU_D09).

Age-Appropriate. All student-facing instruments — the BAT-Student self-report, focus group facilitation guides, consent language — are designed for children aged 6–11. Language is simple, scenarios are relatable, and no child is asked to recall or report anything that could cause distress. Facilitation of student focus groups is restricted to trained Blu Foundation staff.

1.3 A Core Principle: Behavioral Change, Not Academic Marks

This framework measures behavioral change. It does not measure academic performance, and behavioral outcomes are not incorporated into academic grading or school reports.

This distinction is fundamental. Character education researchers have consistently found that integrating behavioral assessment into academic assessment systems undermines the authenticity of both [SOURCE_UK_02]. When children believe their manners are being graded in the same way as their mathematics, they perform etiquette rather than internalise it. Blu Foundation's BAT instruments are therefore explicitly non-academic: they do not appear on school report cards, they are not shared with class teachers as a component of academic assessment, and results are reported at aggregate (class-level or school-level) rather than individual level.

1.4 Who Conducts M&E

Role	Responsibility	Notes
M&E Officer (internal)	Day-to-day data collection coordination, tool design and revision, analysis, report production	[FOUNDER INPUT REQUIRED: M&E Officer hire timeline — Year 1 start recommended; in interim, assign M&E duties to Program Manager]
Program Manager	Monitors coordinator reports, conducts monitoring visits, oversees teacher training follow-up	Until M&E Officer is hired
School Coordinator (partner school)	Completes monthly reports, administers BAT instruments with class teachers, flags issues	Trained by Blu Foundation at program start
External Evaluator	Annual independent assessment of behavioral outcomes, curriculum quality, teacher effectiveness	[FOUNDER INPUT REQUIRED: budget allocation for external evaluator — see Section 8]
Executive Director	Reviews all evaluation reports, approves adaptations, signs off donor reports	—

2. Theory of Change Summary

(Full Theory of Change: see BLU_D03)

Blu Foundation's Theory of Change holds that when primary school children (Class 1–5) in Bangladesh receive structured, culturally grounded instruction in manners and etiquette — delivered through a trained teacher, a purpose-designed textbook, and reinforced by parents and school environment — they develop observable, durable behavioral habits that improve their social relationships, contribute to a more respectful school culture, and equip them with interpersonal competencies that benefit them across their lives. The causal chain is: **quality curriculum + trained teachers + school environment → increased lesson exposure → student behavioral practice → observable behavioral change → improved peer relationships and school climate → long-term character formation**. Critical assumptions include that teachers deliver lessons with fidelity, that parents reinforce learning at home, and that school leadership creates an environment where respectful behavior is modeled and valued. The key risk is that structural pressures (exam focus, large class sizes, resource constraints) crowd out lesson time and reduce teacher engagement.

3. Key Performance Indicators — Master Dashboard

Notes on the KPI Table

- Baseline** refers to the value at program start (Year 0), to be established in the first term of program implementation.
- Behavioral baseline figures draw on available Bangladesh-context data where a Blu Foundation-specific baseline has not yet been established. The bullying baseline draws on [SOURCE_BD_09], which documents prevalence of peer aggression in Bangladesh primary schools.

- SEL behavioral KPI structure follows the framework recommended by the Institute of Education Sciences [SOURCE_ALT_02] for evaluating social-emotional learning programs.
- **Year 1, 2, 3 Targets** are indicative. The M&E Officer and Program Manager should review and revise these targets annually in light of actual baseline data.

3.1 Reach and Output KPIs

Indicator	Level	Baseline	Year 1 Target	Year 2 Target	Year 3 Target	Data Source	Frequency	Responsible
Number of schools implementing the program	Output	0	5	15	30	School Partnership Register	Termly	Program Manager
Number of students enrolled — total	Output	0	1,500	4,500	9,000	School enrollment records	Termly	School Coordinator
Number of students enrolled — female	Output	0	750 (50%)	2,250 (50%)	4,500 (50%)	School enrollment records	Termly	School Coordinator
Number of students enrolled — Class 1–2	Output	0	600	1,800	3,600	School enrollment records	Termly	School Coordinator
Number of students enrolled — Class 3–5	Output	0	900	2,700	5,400	School enrollment records	Termly	School Coordinator
Number of teachers trained	Output	0	25	75	150	Training attendance register	Per training cohort	M&E Officer / Program Manager
Number of textbooks distributed	Output	0	1,500	4,500	9,000	Distribution log	Termly	Program Manager
Number of online course enrollments	Output	0	500	2,000	5,000	Platform analytics	Monthly	M&E Officer

3.2 Behavioral Outcome KPIs

Behavioral indicators follow IES guidance on measuring SEL program outcomes [SOURCE_ALT_02]. Student self-report uses the BAT-Student instrument (Section 4). Teacher observation uses the BAT-Teacher rubric (Section 4).

Indicator	Level	Baseline	Year 1 Target	Year 2 Target	Year 3 Target	Data Source	Frequency	Responsible Party
Student self-reported polite greeting behavior (% responding "Often" or "Always")	Outcome	TBD (BAT baseline, Term 1)	60%	72%	80%	BAT-Student	Terms 1 and 3	School Coordinator M&E Office
Teacher-observed courteous behavior — average rubric score (out of 4)	Outcome	TBD (BAT-Teacher baseline)	2.5	3.0	3.5	BAT-Teacher	Monthly	Class Teacher
Student self-reported bullying involvement — % reporting "Never"	Outcome	41% reporting victimisation [SOURCE_BD_09]	50%	60%	70%	BAT-Student (item 6)	Terms 1 and 3	School Coordinator M&E Office
Parent-reported behavioral change at home (% reporting "noticeable improvement")	Outcome	0% (pre-program)	45%	60%	75%	BAT-Parent survey	Start and end of year	School Coordinator
Student BAT composite score — average (out of 40)	Outcome	TBD (BAT baseline, Term 1)	Gain of ≥4 points from baseline	Gain of ≥7 points from Year 1 baseline	Sustained gain; 80% of students at ≥30	BAT-Student	Terms 1 and 3	M&E Office
Pre/post BAT composite score improvement — effect size	Outcome	—	Cohen's d ≥ 0.2	Cohen's d ≥ 0.4	Cohen's d ≥ 0.5	BAT-Student analysis	Annual	M&E Office

Benchmark note: Where programs of this type have been rigorously evaluated, structured social-emotional and character education interventions have shown academic gains of up to 11 percentile points as a secondary benefit

3.3 Program Quality KPIs

Indicator	Level	Baseline	Year 1 Target	Year 2 Target	Year 3 Target	Data Source	Frequency	Responsible
Teacher training satisfaction score (out of 5)	Quality	—	≥4.0	≥4.2	≥4.3	Training Feedback Form	Per training cohort	M&E Officer
Textbook completion rate — % of curriculum chapters delivered per class	Quality	—	≥75%	≥85%	≥90%	School Coordinator Monthly Report	Monthly	School Coordinator
Online course completion rate	Quality	—	>70%	>75%	>80%	Platform analytics	Monthly	M&E Officer
School coordinator meeting attendance (% of scheduled calls attended)	Quality	—	≥80%	≥85%	≥90%	Meeting register	Monthly	Program Manager
Monitoring visit completion rate (% of planned visits conducted on schedule)	Quality	—	≥90%	≥95%	100%	Monitoring Visit Reports	Termly	Program Manager

3.4 Organizational KPIs

Indicator	Level	Baseline	Year 1 Target	Year 2 Target	Year 3 Target	Data Source	Frequency	Responsible
Budget variance (actual vs. approved budget)	Organizational	—	<10%	<8%	<8%	Financial reports	Quarterly	Executive Director / Finance

Donor reports submitted on time (% of due reports submitted by deadline)	Organizational	—	100%	100%	100%	Donor reporting log	Per report cycle	Executive Director
School partnership renewals (% of Year 1 schools renewing in Year 2)	Organizational	—	≥80%	≥85%	≥90%	Partnership Register	Annual	Program Manager
Staff turnover rate	Organizational	—	<20%	<15%	<15%	HR records	Annual	Executive Director

4. Blu Foundation Behavioral Assessment Tool (BAT)

About the BAT

The Behavioral Assessment Tool is Blu Foundation's core student assessment instrument. It exists in three versions for three audiences: students (self-report), teachers (observation rubric), and parents (home survey). All three measure the same underlying construct — whether students are demonstrating the manners, etiquette, and interpersonal behaviors taught in the Blu Foundation curriculum — from different vantage points.

What the BAT measures: Observable behavior. Not knowledge of rules. Not ability to recite definitions. Behavioral assessments ask: *Is the child doing this?* not *Does the child know this?* This is consistent with the principle that character is assessed separately from academic knowledge [SOURCE_UK_02].

Administration schedule:

- **Baseline:** Start of program (first two weeks of Term 1, Year 1; at program start for newly joining schools thereafter)
- **Mid-point:** End of Term 1
- **Endline:** End of academic year (Term 3)

Scoring: Each item is scored 0 (Never), 1 (Sometimes), 2 (Often), 3 (Always). Maximum BAT-Student score: 30 (for 10 items). Results are reported at class level and school level. Individual scores are confidential.

Language: BAT-Student (Class 3–5) is administered in Bengali. BAT-Teacher and BAT-Parent are in Bengali. **[NEEDS BENGALI TRANSLATION — all three instruments to be professionally translated and back-translated before program launch]**

4.1 BAT-Student (Self-Report) — Class 3–5

Instructions for the class teacher: "I am going to read some sentences about how we behave with other people. For each one, please circle the word that is most true for you. There are no right or wrong answers. This is not a test. No one will know which answer you chose."

Instructions for students: "Read each sentence. Think about what you usually do — not what you think you should do. Circle your honest answer."

[NEEDS BENGALI TRANSLATION]

#	Statement	Never	Sometimes	Often	Always
1	I say "please" and "thank you" when asking for things or receiving help.	☐	☐	☐	☐
2	I greet my elders — teachers, parents, and other adults — when I see them.	☐	☐	☐	☐
3	I wait my turn in line without pushing or complaining.	☐	☐	☐	☐
4	I use kind words, even when I am upset or angry with someone.	☐	☐	☐	☐
5	I clean up after myself — in the classroom, playground, and public spaces.	☐	☐	☐	☐
6	If someone is being treated badly by others, I try to help or get an adult.	☐	☐	☐	☐
7	I listen carefully when someone is speaking and do not interrupt.	☐	☐	☐	☐
8	I say sorry when I make a mistake or hurt someone's feelings.	☐	☐	☐	☐
9	I share things (food, materials, space) with my classmates fairly.	☐	☐	☐	☐
10	I speak politely to everyone — including people I do not know well.	☐	☐	☐	☐

Class 4–5 Additional Items (administer in addition to items 1–10):

#	Statement	Never	Sometimes	Often	Always
11	I put my phone or device away when I am talking to someone face to face.	☐	☐	☐	☐
12	I think about how my actions might affect others before I do something.	☐	☐	☐	☐
13	I respect people's opinions, even when they are different from mine.	☐	☐	☐	☐

BAT-Student Scoring Guide (for M&E Officer use only — do not share with students):

Score Range	Interpretation
0–10	Behaviors rarely observed/reported; priority for targeted support
11–19	Developing — some behaviors emerging; continue program with encouragement
20–25	Progressing well — most behaviors frequent or consistent
26–30 (or 39 for Class 4–5)	Strong behavioral profile across all indicators

Note for M&E Officer: Scores below 15 at endline for more than 30% of a class warrant a conversation with the school coordinator and class teacher to understand contextual factors. Do not communicate individual scores to teachers or students.

4.2 BAT-Teacher (Observation Rubric) — All Classes

Purpose: Systematic teacher observation of student behavior during and outside Blu Foundation lessons. Completed monthly by the class teacher after a period of structured observation (at least two full school days of informal observation, plus at least one Blu Foundation lesson observation).

Instructions: "For each behavior listed below, rate the typical behavior you observe in this class as a whole. Use the 1–4 scale. Add brief notes about specific students or situations if relevant. Scores represent the class average — imagine you are rating the 'typical' student in your class."

[NEEDS BENGALI TRANSLATION]

DOMAIN A: RESPECT FOR ADULTS AND ELDERS

Behavior	1 — Rarely	2 — Sometimes	3 — Often	4 — Consistently	Notes
A1. Students greet teachers and adult visitors when entering or leaving	☐	☐	☐	☐	
A2. Students listen without interrupting when teacher is speaking	☐	☐	☐	☐	
A3. Students follow instructions without argument or complaint	☐	☐	☐	☐	

DOMAIN B: COURTESY AND POLITENESS

Behavior	1 — Rarely	2 — Sometimes	3 — Often	4 — Consistently	Notes
B1. Students use "please," "thank you," and "sorry" appropriately	☐	☐	☐	☐	
B2. Students use polite language when speaking to peers	☐	☐	☐	☐	
B3. Students wait their turn (in line, to speak, for materials)	☐	☐	☐	☐	

DOMAIN C: RESPONSIBILITY AND CLEANLINESS

Behavior	1 — Rarely	2 — Sometimes	3 — Often	4 — Consistently	Notes
----------	---------------	------------------	--------------	---------------------	-------

C1. Students maintain their personal space and belongings tidily	☐	☐	☐	☐	
C2. Students clean up after themselves (after meals, activities, play)	☐	☐	☐	☐	
C3. Students take care of shared materials and classroom furniture	☐	☐	☐	☐	

DOMAIN D: KINDNESS AND INCLUSION

Behavior	1 — Rarely	2 — Sometimes	3 — Often	4 — Consistently	Notes
D1. Students include others in games and group activities	☐	☐	☐	☐	
D2. Students use kind words and avoid name-calling or mockery	☐	☐	☐	☐	
D3. Students show concern when a classmate is upset or in difficulty	☐	☐	☐	☐	

DOMAIN E: HONESTY AND INTEGRITY

Behavior	1 — Rarely	2 — Sometimes	3 — Often	4 — Consistently	Notes
E1. Students admit mistakes rather than blaming others	☐	☐	☐	☐	
E2. Students are honest in their work (do not copy without acknowledgment)	☐	☐	☐	☐	

BAT-Teacher Total Score: ____ / 52

Overall class behavioral observation (free text):

Describe any notable changes since last month, any emerging concerns, or any students who would benefit from additional encouragement (do not name individual students in this report — use descriptors such as "one student in Class 3B" if needed):

Teacher name: _____ **Class:** _____ **Month/Year:** _____

4.3 BAT-Parent (Parent Survey) — Bengali Primary Version

Purpose: To capture behavioral change observed in the home environment by parents or guardians. The home environment is a critical domain because it reflects whether behavioral learning is generalizing beyond the school setting.

[NEEDS BENGALI TRANSLATION — the English version below is a working draft only. All parent-facing materials must be translated into Bengali before distribution. A back-translation check is required before finalization.]

Instructions for school coordinator: Distribute at program start (baseline) and at program end (endline). Provide instructions verbally for parents who need support reading. Ensure parents understand that responses are anonymous and voluntary.

Instructions for parents: "Your child is participating in the Blu Foundation Manners and Etiquette Program at school. We would like to know if you have noticed any changes in your child's behavior at home. Your answers are anonymous — no one will know which parent gave which answers. There are no right or wrong answers."

#	Question	Not at all	A little	Noticeably	A great deal
1	Since starting the program, how much have you noticed your child using polite words (such as "please," "thank you," and "sorry") at home?	☐	☐	☐	☐
2	How much have you noticed your child showing respect to elders (parents, grandparents, visitors) in the home?	☐	☐	☐	☐
3	How much have you noticed your child cleaning up after themselves or keeping their things tidy without being asked?	☐	☐	☐	☐
4	How much have you noticed your child being kind and patient with siblings or other children at home?	☐	☐	☐	☐
5	Overall, how would you describe any change in your child's behavior and manners since joining the program?	☐ No change noticed	☐ Small improvement	☐ Clear improvement	☐ Very significant improvement

Open question: "Is there anything else you would like to share about your child's behavior that you think is related to the program?"

School name: _____ **Child's class (not name):** _____ **Date:** _____

5. Data Collection Tools

The following instruments constitute Blu Foundation's complete data collection system. Each is listed with its purpose, format, who completes it, and when.

Tool	Purpose	Format	Who Completes	When	Section Reference
------	---------	--------	---------------	------	-------------------

BAT-Student (self-report)	Measure student behavioral self-assessment	Paper questionnaire, individual	Students (Class 3–5), facilitated by class teacher	Baseline (Term 1 start), End of Term 1, Endline (Term 3 end)	Section 4.1
BAT-Teacher (observation rubric)	Systematic teacher observation of class behavioral norms	Paper rubric	Class teacher	Monthly	Section 4.2
BAT-Parent (home survey)	Capture parent-observed behavioral change at home	Paper survey (Bengali)	Parent or guardian	Program start and program end (annual)	Section 4.3
School Coordinator Monthly Report	Track lesson delivery, attendance, behavioral observations, challenges	Structured paper/digital form	School Coordinator	Monthly (submitted within first 5 days of following month)	Section 6
Teacher Training Feedback Form	Assess quality and usefulness of teacher training	Paper form with rating scales and open questions	Participating teachers	Immediately after each training session	Appendix A (to be developed)
Monitoring Visit Report	Document findings from Blu Foundation staff school visits	Structured observation report	Blu Foundation Program Manager / M&E Officer	Within 5 working days of each monitoring visit	Section 7
School Partnership Renewal Assessment	Assess school performance and satisfaction for partnership renewal decision	Joint assessment form	Blu Foundation Program Manager + School Coordinator	Annually (Q4)	Appendix B (to be developed)
Online Platform Analytics Report	Track enrollment, completion rates, engagement metrics	Automated platform export	Platform system (automated)	Monthly report generated by M&E Officer	—
6-Month Review Report	Mid-year program review for internal and donor use	Structured report template	M&E Officer (drafted), Program Manager (reviewed), Executive Director (approved)	End of Month 6 each year	Section 9
Annual Review Report	Full-year program review	Structured report template	M&E Officer (drafted), with external evaluation input	Within 8 weeks of academic year end	Section 10

6. School Coordinator Monthly Report Template

[NEEDS BENGALI TRANSLATION — a Bengali version of this template should be available for coordinators who prefer to report in Bengali. Translation to be completed before program launch.]

BLU FOUNDATION — SCHOOL COORDINATOR MONTHLY REPORT

Report reference: BLU-MCR-[School Code]-[YYYY-MM]

Field	Response
Month and Year	
School Name	
School Code	
Coordinator Name	
Coordinator Contact (phone/email)	
Date of Report Submission	

Section A: Lessons Delivered This Month

Mark *Y* (Yes — delivered), *P* (Partial — partially delivered), *N* (No — not delivered), *NA* (Not applicable for this class level).

Chapter / Unit	Class 1	Class 2	Class 3	Class 4	Class 5	Reason if Not Delivered
Chapter [1] — [Title from curriculum]						
Chapter [2] — [Title from curriculum]						
Chapter [3] — [Title from curriculum]						
Chapter [4] — [Title from curriculum]						
<i>(Add rows as needed for the month's scheduled units)</i>						

Total lessons scheduled this month: ____ **Total lessons delivered:** ____ **Completion rate:** ____%

Section B: Attendance

Class	Total Enrolled	Average Weekly Attendance (No. of students)	Attendance Rate (%)
Class 1			
Class 2			
Class 3			
Class 4			

Class 5			
Total			

Section C: Behavioral Observations

Please describe 2–3 specific behavioral changes you have noticed among students this month. These can be positive changes or concerns. Be specific — describe what you observed, not what you think the student felt.

Observation 1:

Observation 2:

Observation 3 (optional):

Section D: Challenges Faced

Please describe any challenges encountered this month that affected lesson delivery, student engagement, or program quality.

Challenge 1:

Challenge 2 (if applicable):

Section E: Support Needed from Blu Foundation

Is there anything you need from Blu Foundation to improve program delivery next month?

- ☐ Additional teaching materials (*specify*): _____
- ☐ Teacher refresher training on (*topic*): _____
- ☐ Visit from Blu Foundation program staff
- ☐ Clarification on curriculum content — (*which unit*): _____

- ☐ Support with parent engagement
- ☐ Other: _____

Section F: Safeguarding

This section is mandatory. Answer honestly. If you have any concern, Blu Foundation will respond with support — not blame.

Have you become aware of any safeguarding concerns involving a student this month? *(A safeguarding concern includes: suspected abuse at home, bullying that has not been resolved, a student disclosing harm, or any situation where a child's safety may be at risk.)*

☐ **No** — No concerns to report this month.

☐ **Yes** — I have completed a separate Safeguarding Incident Report (Form BLU-SG-01) and submitted it to: _____ on (date): _____

If you have ticked Yes and have not yet completed a Safeguarding Incident Report, contact the Blu Foundation Program Manager immediately by phone before submitting this report.

Coordinator Signature: _____ **Date:** _____

Submit to: [M&E Officer email address] by the 5th of each month.

7. Monitoring Visit Protocol

7.1 Purpose

Monitoring visits are Blu Foundation's primary mechanism for direct observation of program quality. They serve three functions: to verify what coordinator reports are indicating, to identify quality issues not captured in written reports, and to provide direct support and encouragement to teachers and coordinators. Visits are scheduled (not surprise), and schools are informed at least one week in advance.

Frequency: Once per term per partner school (3 visits per academic year per school).

Who conducts visits: Program Manager (Year 1). M&E Officer when hired (Year 1 onward, once in post).

7.2 Pre-Visit Preparation (At Least 3 Days Before Visit)

- ☐ Review the last three monthly coordinator reports for the school. Note: lesson completion rates, attendance trends, any reported challenges, any behavioral observations worth following up.
- ☐ Review the most recent BAT-Teacher scores for the school (if available).
- ☐ Prepare the classroom observation schedule (which classes, which teachers).

- ☐ Confirm visit date and time with school coordinator.
- ☐ Confirm student focus group logistics: 6–8 students from Class 3–5, parental consent required, private space available, no teacher present during focus group.
- ☐ Review the school's BAT-Student baseline data to have comparison points during the visit.
- ☐ Bring: observation checklist (printed), monitoring visit report template, consent forms (if not pre-distributed), camera (only if school has signed media consent).

7.3 During the Visit

Classroom Observation (30 minutes per class visited, minimum 2 classes)

Observe a Blu Foundation lesson or a regular class period. Complete the classroom observation checklist (Section 7.5) during the observation. Do not intervene in the lesson. Note specific examples, not just impressions.

Teacher Interview (20 minutes, semi-structured)

Conduct after the classroom observation. Key questions:

1. How confident do you feel delivering the Blu Foundation curriculum? What parts feel most natural? What parts feel difficult?
2. Have you noticed any behavioral changes in your students since starting the program? Can you give me a specific example?
3. Are there any lessons or activities that students respond to particularly well? Any they disengage from?
4. Have parents mentioned anything to you about their child's behavior at home?
5. Is there anything Blu Foundation could do to better support you?
6. Do you have enough materials? Is the textbook meeting your needs?

Student Focus Group (20 minutes, 6–8 students from Class 3–5)

Facilitated by the visiting Blu Foundation staff. No teachers or school management present. Conducted in Bengali. Age-appropriate, informal, strengths-based. Sample questions:

- "What is your favourite thing you have learned in the manners lessons this year?"
- "Has anything you learned changed how you act at home or with your friends?"
- "Is there anything about the lessons you find boring or difficult to understand?"
- "Do your classmates treat each other more kindly than at the start of the year? Can you give an example?"
- "Is there anything you wish you could learn more about?"

Do not ask: Leading questions about specific behavioral changes. Questions about family or home situations. Any question that could cause a child to feel evaluated or compared to peers.

Coordinator Debrief (15 minutes)

At the end of the visit, meet with the coordinator privately. Share 2–3 positive observations. Raise 1–2 areas of concern constructively. Ask about upcoming challenges. Confirm next steps.

7.4 Post-Visit Actions

- ☐ Complete the Monitoring Visit Report (template below, Section 7.6) within 5 working days of the visit.
- ☐ Share a summary of key findings with the school coordinator (email or printed, in Bengali if preferred). This is not a formal report — it is a short "here is what we observed and here is what we are doing" note.
- ☐ If any issues require follow-up (e.g., additional training needed, curriculum materials missing, a safeguarding concern), initiate the relevant response within 10 working days.
- ☐ Update the KPI dashboard with any new data collected during the visit.
- ☐ Flag any systemic issues (patterns across multiple schools) to the Program Manager for escalation.

7.5 Classroom Observation Checklist

Observer: _____ **School:** _____ **Class:** _____ **Teacher:** _____ **Date:** _____ **Duration of observation:** _____ min

Rate each item: **Y** (Yes, clearly observed), **P** (Partial / inconsistent), **N** (Not observed), **NA** (Not applicable in this lesson segment)

#	Observation Item	Rating	Notes
1	Lesson is a Blu Foundation curriculum unit (or curriculum content is integrated into regular lesson)		
2	Teacher introduces the lesson clearly and links it to students' real experiences		
3	Students appear engaged and attentive for the majority of the observed period		
4	Teacher models the behavior being taught (e.g., uses polite language themselves)		
5	Lesson includes at least one participatory activity (role play, discussion, demonstration)		
6	Teacher creates a safe environment — no student is ridiculed or singled out negatively		
7	Classroom environment reflects program values (e.g., visible rules are polite and respectful in tone)		
8	Students demonstrate at least some of the target behaviors during the observed period		
9	Teacher manages disruptions calmly and consistently with the program's values		
10	The textbook or program materials are visible and in use		

Overall lesson quality rating (1–5): _____

Observer's summary notes:

7.6 Monitoring Visit Report — Summary Template

Report reference: BLU-MVR-[School Code]-[YYYY-T1/T2/T3]

Field	Response
School Name and Code	
Visit Date	
Conducted by	
Classes observed	
Teachers interviewed	
Students in focus group (number and class)	
School Coordinator present	Yes / No

1. Summary of Findings

(2–3 paragraphs covering: overall program status, classroom quality, teacher confidence and fidelity, student engagement, coordinator performance)

2. Positive Observations (minimum 3)

- 1.
- 2.
- 3.

3. Areas Requiring Attention (minimum 1)

- 1.
2. *(if applicable)*

4. Actions Agreed with School

Action	Responsible	Deadline

6. Safeguarding

☐ No safeguarding concerns identified during this visit. ☐ Safeguarding concern identified — details in confidential annex (BLU-SG annexe to this report).

Report prepared by: _____ Date: _____ Reviewed by Program Manager: _____ Date: _____

8. Annual External Evaluation

8.1 Purpose and Rationale

Internal monitoring, however well-designed, cannot substitute for independent external assessment. External evaluation provides three things internal monitoring cannot: independence (the evaluator has no stake in the findings), methodological rigor (an external researcher applies research-grade standards to data collection and analysis), and credibility (donors and the public trust findings that have not been self-reported). From Year 1, Blu Foundation commits to commissioning an annual external evaluation.

[FOUNDER INPUT REQUIRED: Budget allocation for external evaluator. Recommended minimum BDT 3,00,000–5,00,000 per year for a qualified Bangladesh-based education researcher. Please confirm: (a) confirmed budget ceiling; (b) whether cost is built into core budget or requires separate donor earmarking; (c) whether Year 1 evaluation scope should be reduced given early program stage.]

8.2 Scope

The external evaluator will conduct an independent assessment of:

- Behavioral outcomes:** Pre/post BAT-Student comparison, independently analyzed. The evaluator receives anonymized BAT data collected by Blu Foundation; they also independently administer a sample of BAT instruments across a sub-sample of schools to verify Blu Foundation's data.
- Curriculum quality:** Review of the textbook, online course, and lesson plans against recognized frameworks for character education and child development.
- Teacher effectiveness:** Observation of at least 10% of program teachers across at least 30% of partner schools. Structured teacher interviews.
- Parent and community perception:** Focus groups with parents at a minimum of 3 partner schools.
- Organizational effectiveness:** Review of Blu Foundation's M&E systems, data quality, and adherence to this framework.

8.3 Evaluation Method

Method	Detail
BAT pre/post comparison	Evaluator-analyzed using Blu Foundation data + independent spot-check sample

Classroom observation	Standardized observation checklist; minimum 10% of teachers, 30% of schools
Teacher interviews	Semi-structured; minimum 20 teachers
Parent focus groups	Minimum 3 focus groups (separate from Blu Foundation staff facilitation)
Student focus groups	Minimum 3 focus groups; facilitator independent of Blu Foundation
Document review	Curriculum, coordinator reports, monitoring visit reports, financial records

8.4 Evaluator Profile

- Qualification: Masters or PhD in Education, Child Development, Psychology, or related field
- Experience: minimum 5 years in education research or program evaluation
- Bangladesh context: experience working in Bangladesh or South Asia primary education preferred
- Language: Bengali-speaking strongly preferred
- Independence: no current or recent employment or consultancy relationship with Blu Foundation
- Preferred institutional affiliation: BRAC Institute of Educational Development (IED), BRAC University, University of Dhaka (Education or Psychology), Independent University Bangladesh, or equivalent

8.5 Evaluation Report

The external evaluator produces a written report in English (with Bengali executive summary) covering:

- Executive summary (maximum 2 pages)
- Methodology
- Findings by domain (behavioral outcomes, curriculum quality, teacher effectiveness, parent perception, organizational effectiveness)
- Recommendations for program improvement
- Appendices: instruments used, data tables, school sample list (anonymized)

Report to be:

- Shared with Blu Foundation Executive Director within 6 weeks of fieldwork completion
- Shared (in full, unedited) with major institutional donors within 2 weeks of Blu Foundation receipt
- Published on Blu Foundation website (public version, with school names anonymized unless permission granted)

8.6 Year 3 Ambition: Peer-Reviewed Publication

By Year 3, if behavioral outcome data is sufficiently robust, Blu Foundation will explore co-authoring a peer-reviewed journal paper on program outcomes in partnership with the external evaluator and a university partner (BRAC University IED, University of Dhaka, or a UK/US partner institution). This would establish Blu Foundation as a credible contributor to the evidence base on character education in Bangladesh, and would be a significant reputational and fundraising asset. The M&E Officer should begin discussing this possibility with the Year 3 external evaluator from the start of the evaluation process.

9. 6-Month Review Template

BLU FOUNDATION — 6-MONTH PROGRAM REVIEW

Period covered: [Month] to [Month], [Year] **Report code:** BLU-6MR-[YYYY-H1/H2] **Prepared by:** M&E Officer / Program Manager **Reviewed by:** Executive Director **Date of report:** _____

Section 1: Program Reach — KPI Actuals vs. Targets

KPI	6-Month Target	6-Month Actual	Variance	Status
Schools implementing program				☐ On track ☐ Behind ☐ Ahead
Students enrolled (total)				☐ On track ☐ Behind ☐ Ahead
Students enrolled (female)				☐ On track ☐ Behind ☐ Ahead
Teachers trained				☐ On track ☐ Behind ☐ Ahead
Textbooks distributed				☐ On track ☐ Behind ☐ Ahead
Online course enrollments				☐ On track ☐ Behind ☐ Ahead
Curriculum chapter completion rate				☐ On track ☐ Behind ☐ Ahead
Online completion rate				☐ On track ☐ Behind ☐ Ahead

Narrative (maximum 300 words): *(Explain key variances. Do not only report what went well — explain delays or shortfalls honestly and with proposed remedies.)*

Section 2: Behavioral Outcomes — BAT Scores

Complete this section at 6-month point using available BAT-Student and BAT-Teacher data. Note: a full pre/post comparison requires Term 3 endline data; 6-month data reflects Term 1 endline compared to baseline.

Indicator	Baseline (Term 1 Start)	6-Month / Term 1 End	Change	Interpretation
BAT-Student average score (Class 3–5)				
% students at "Often" or "Always" on greeting (Item 2)				
% students at "Often" or "Always" on politeness (Item 1)				

% students reporting bystander behavior (Item 6)				
BAT-Teacher average class score (across all schools)				

Qualitative observations from coordinators and monitoring visits:

Section 3: Financial Performance

Budget Category	6-Month Budget	6-Month Actual	Variance (BDT)	Variance (%)
Personnel				
Curriculum materials				
Training				
Monitoring and evaluation				
Administration				
Total				

Budget narrative (maximum 150 words):

Section 4: Key Learnings and Adaptations Made

(What has the program learned in the first 6 months? What has been changed or improved as a result? Be specific.)

Learning	Adaptation Made	Date of Adaptation

Section 5: Risks Identified

Risk	Likelihood (H/M/L)	Impact (H/M/L)	Mitigation Action	Owner

Section 6: Plan for Next 6 Months

(Priorities, milestones, and any anticipated challenges for the second half of the year.)

Priority	Key Actions	Milestone / Target Date

10. 12-Month / Annual Review Template

BLU FOUNDATION — ANNUAL PROGRAM REVIEW

Academic year covered: [Year] **Report code:** BLU-AR-[YYYY] **Prepared by:** M&E Officer **External evaluation findings included:** Yes / No (if No, attach timeline for receipt) **Reviewed by:** Program Manager **Approved by:** Executive Director
Date of report: _____

Section 1: Full KPI Dashboard Update

Reproduce the full KPI table from Section 3 and populate with Year-End Actuals. Highlight in bold any KPI where Year-End Actual falls more than 15% below Year Target.

(Insert full KPI table with Baseline / Year Target / Year Actual / Status)

Section 2: Year-on-Year Comparison

(From Year 2 onward. Compare this year's results with the previous year's actuals.)

Indicator	Previous Year Actual	This Year Actual	Change	Trend
Schools implementing program				↑ / ↓ / →
Students enrolled				↑ / ↓ / →
BAT-Student average score				↑ / ↓ / →
BAT-Teacher average score				↑ / ↓ / →
Curriculum completion rate				↑ / ↓ / →
Parent-reported improvement (%)				↑ / ↓ / →

Section 3: Case Studies — Stories of Change

Include 2–3 qualitative case studies drawn from the year's monitoring visits and coordinator reports. Each case study should describe a real, specific change observed in a student, class, or school community. Names of students are anonymized (use descriptors: "a Class 4 student at [School name]"). Stories must be based on direct observation or interview, not speculation.

Case Study 1:

Title: (e.g., "From the Back of the Line to the Front of the Classroom: Patience and Belonging at [School Name]")

(Approximately 150–200 words describing what was observed, what changed, and what it means. Include a quote from the teacher or coordinator if available.)

Case Study 2:

Title:

Case Study 3:

Title:

Section 4: Financial Statements (Summary)

(Attach full audited financial statements as annexe. Include summary table here.)

Category	Annual Budget	Annual Actual	Variance (BDT)	Variance (%)
Personnel				
Curriculum materials				
Training				
Monitoring and evaluation				
Administration and overhead				
External evaluation				
Total				

Section 5: External Evaluation Findings (Summary)

(Summarize the external evaluator's key findings. Attach full report as annexe. Do not edit or selectively quote the evaluator's findings — reproduce them accurately, including critical findings.)

Evaluator: _____ Evaluation period: _____

Key Findings: 1. 2. 3. 4.

Key Recommendations from Evaluator: 1. 2. 3.

Blu Foundation response to recommendations:

(Describe how Blu Foundation will respond to each recommendation, or explain why a recommendation will not be implemented.)

Section 6: Adaptations for Next Year

(What is changing in the program next year, based on this year's evidence? Be specific — include changes to curriculum, training, tools, staffing, or school selection criteria.)

Adaptation	Evidence Base for Change	Planned Implementation

11. Donor Reporting Schedule

All donor reports are submitted by the Executive Director and reviewed by the M&E Officer. Financial sections are reviewed by the Finance Manager before submission.

Donor Type	Report Format	Frequency	Typical Due Date	Content Summary
Individual donors (online/direct)	Brief impact update (1–2 pages, plain language, with photos)	Twice per year (mid-year and year-end)	June 30 and December 31	Student reach, 1–2 behavioral outcome highlights, 1 case study, financial summary in plain language
Institutional funders (grants)	Full programmatic and financial report (format per funder requirements)	Quarterly or semi-annually (as per grant agreement)	Per grant agreement	Full KPI dashboard, BAT outcome data, budget vs. actual, narrative on progress and challenges, external evaluation findings when available
Corporate partners	Partnership impact report (co-branded if partner wishes)	Annually	March 31 (or as agreed)	Reach data, behavioral outcomes, case studies, CSR alignment statement
Government / NGOAB	As required under NGO Affairs Bureau registration and Foreign Donation Regulation Act	Annual (and as required)	As per NGOAB deadline	Program activities, beneficiary data, financial statements (as required by regulation)
Major donors (≥BDT 5,00,000)	Personal briefing + full annual report	Annually	Within 8 weeks of academic	Full annual review findings, invitation to site visit

			year end	
--	--	--	----------	--

Donor Reporting Log (maintained by M&E Officer):

Donor Name	Report Type	Due Date	Submitted Date	Status

12. Ethical Standards for Data Collection

These standards are not optional. They apply to all data collected under this framework, by all Blu Foundation staff, school coordinators, and external evaluators.

12.1 Informed Consent

All data collection involving children requires **written consent from a parent or guardian** before data is collected. Consent forms must be:

- Written in Bengali (and any other relevant language for the school community) **[NEEDS BENGALI TRANSLATION]**
- Explained verbally to parents who may need support understanding written text
- Archived securely by Blu Foundation for the duration of data use
- Genuinely voluntary — schools and coordinators must be explicitly instructed that children of non-consenting parents participate fully in the program; only data collection is withheld

Children from Class 3 onward also receive an age-appropriate verbal explanation ("We are going to ask you some questions about how you behave. You do not have to answer if you do not want to. Your answers are private.") before any BAT-Student instrument is administered. This is not a substitute for parental consent; it is an additional assurance of child agency.

12.2 Anonymization

Student-level data is anonymized before it is entered into any analysis or reporting system. The process is:

1. Each student is assigned an anonymized code by the school coordinator at the time of BAT administration (e.g., "School 03 / Class 4 / Student 12").
2. The key linking code name to anonymized code is stored at the school only, in a secure location accessible only to the school coordinator and head teacher.
3. Blu Foundation never receives named student data.
4. All reports — internal or external — use aggregated class-level or school-level data. No individual student results appear in any report.

12.3 Bengali Language

All parent-facing materials — consent forms, the BAT-Parent survey, parent focus group facilitation guides — must be available in Bengali before the program begins collecting data. **[NEEDS BENGALI TRANSLATION — all items marked**

with this flag in this document require professional translation and back-translation check before program launch. A budget line for translation should be included in the Year 1 operational budget.]

12.4 Child-Appropriate Facilitation

Student focus groups (as part of monitoring visits and external evaluation) are facilitated only by:

- Trained Blu Foundation program staff, or
- The external evaluator (or their designated, trained researcher)

No teacher, school management member, or other school staff member may be present during a student focus group. Students must know before the group begins that their answers will not be shared with their teacher. Facilitators use the approved Blu Foundation focus group guide and do not improvise questions that could elicit disclosures of harm or cause distress.

If a child makes a disclosure of harm during a focus group session, the facilitator follows the Blu Foundation Safeguarding Protocol (BLU_D-SG) immediately. Focus group notes are never attributed to individual children.

12.5 Data Storage

Data Type	Storage Location	Access	Retention Period
BAT-Student (paper originals)	Partner school, secure locked storage	School Coordinator and Head Teacher only	Academic year + 1 year, then transferred to Blu Foundation or destroyed
BAT-Student (entered data)	Password-protected Blu Foundation server, Bangladesh-based	M&E Officer and Executive Director only	5 years after program end
BAT-Teacher (paper originals)	Partner school, secure locked storage	School Coordinator only	Academic year + 1 year
BAT-Parent (paper originals)	Partner school, secure locked storage	School Coordinator only	Academic year + 1 year
Monthly coordinator reports	Password-protected Blu Foundation server	M&E Officer, Program Manager, Executive Director	5 years after program end
Monitoring visit reports	Password-protected Blu Foundation server	M&E Officer, Program Manager, Executive Director	5 years after program end
External evaluation data	Evaluator-managed during evaluation; final report archived by Blu Foundation	As above	5 years after program end
Online platform data	Platform provider server; Blu Foundation retains export copies	M&E Officer	5 years after program end

12.6 Retention and Destruction

All data is retained for **5 years after the conclusion of the program** to which it relates (or 5 years after the end of the student's participation in the program, whichever is later). After the retention period, paper records are physically destroyed (cross-cut shredded). Digital records are permanently deleted with confirmation from the IT system administrator. A destruction log is maintained by the M&E Officer.

12.7 Data Breach Protocol

If student data is lost, accessed without authorization, or compromised, the M&E Officer and Executive Director are notified within 24 hours. If the breach involves named student data, affected parents are notified within 72 hours. If the breach constitutes a notifiable event under Bangladesh data protection requirements, Blu Foundation complies with all regulatory notification requirements. Blu Foundation will maintain a data breach log regardless of whether regulatory notification is required.

Appendix: Citation References

Code	Source Description
[SOURCE_BD_09]	Bangladesh-context data on bullying prevalence and peer aggression in primary schools. Used as baseline metric for bullying-related KPIs in Section 3.2.
[SOURCE_GL_01]	Evidence on academic gain (11 percentile points) associated with structured SEL and character education programs. Used as benchmark for outcome claims in Section 3.2. Reference: Durlak et al. (2011) or equivalent meta-analysis on SEL academic outcomes.
[SOURCE_ALT_02]	Institute of Education Sciences (IES) framework for behavioral KPIs in social-emotional learning program evaluation. Used to structure behavioral outcome KPI categories in Section 3.2.
[SOURCE_UK_02]	UK-context research and policy guidance establishing that assessment of character is distinct from, and should not be integrated into, academic grading. Used to underpin the BAT design principle in Sections 1.3 and 4.

Appendix: Outstanding Actions Before Launch

The following items require resolution before this M&E Framework is operationalized:

Item	Description	Owner	Priority
[FOUNDER INPUT REQUIRED]	Budget allocation for external evaluator (Section 8, Section 1.4)	Founder / Executive Director	High
[FOUNDER INPUT REQUIRED]	M&E Officer hire timeline (Section 1.4)	Founder / Executive Director	High
[NEEDS BENGALI TRANSLATION]	BAT-Student instrument (Section 4.1)	M&E Officer / translator	High — required before data collection begins
[NEEDS BENGALI TRANSLATION]	BAT-Teacher rubric (Section 4.2)	M&E Officer / translator	High — required before data collection begins

[NEEDS BENGALI TRANSLATION]	BAT-Parent survey (Section 4.3)	M&E Officer / translator	High — required before data collection begins
[NEEDS BENGALI TRANSLATION]	School Coordinator Monthly Report Template (Section 6)	M&E Officer / translator	Medium
[NEEDS BENGALI TRANSLATION]	Parental consent forms	M&E Officer / translator	High — required before any data collection
Appendix A development	Teacher Training Feedback Form	M&E Officer	Medium
Appendix B development	School Partnership Renewal Assessment form	Program Manager	Medium
Safeguarding Protocol	BLU_D-SG to be cross-referenced with this document once complete	Program Manager	High
Curriculum chapter list	Section 6 (Monthly Report) requires actual chapter names from BLU_D05 curriculum	Curriculum Lead	Medium — complete before coordinator training
Platform selection	Online course platform analytics format depends on platform choice (BLU_D-Tech)	Operations	Medium

End of BLU_D17 — Monitoring & Evaluation Framework

Version 1.0 | June 2026 | Status: Draft Next review: December 2026 (6-month review of framework itself, not just program)
Document owner: M&E Officer (or Program Manager until M&E Officer is in post)
